PRODUCT INFORMATION

Part #: B404846-PGS-1

Product Category: Plastic Gaylords

Related Products: DGB404846-L

Industries: Agriculture, Food & Beverage, Resin

The 40" x 48" x 46" Plastic Gaylord, with steel reinforcements, can handle the massive pressures of flowable materials and is FDA-approved for direct contact with food products. The steel-reinforced plastic gaylord is ideal for transporting and storing resin, powders, ingredients, and other flowable materials. Heavy-duty, double-wall, polypropylene construction allows the plastic gaylord, with steel reinforcements, to hold up to 2500 lbs of materials. Its pallet base allows for secure handling with either a forklift or pallet jack.

FEATURES & BENEFITS

OPTIONAL LID

Optional lid creates a more solid overall container.

SMOOTH WALL CONSTRUCTION

Smooth, nonporous surfaces are easy to sanitize and won't trap debris, breed bacteria, or absorb chemicals like wood bin.

INTERLOCKING WALLS

Interlocking corners prevent sidewalls from failing, resulting in the ability to hold large amounts of lateral pressure.
