The 45" x 48" x 41" heavy-duty solid-floor collapsible bulk container, made from high-density polyethylene, is a versatile solution for various storage and handling needs. With a 2,000 lb. capacity, it is built for years of reliable service. This reusable container has two drop doors for easy access to contents. The pallet-style base offers a 4-way forklift and pallet jack access for secure and efficient handling. The container is stackable, easy to assemble and knock down, and has a 2.1:1 nesting ratio that maximizes storage space and cuts return shipping costs. It's an ideal choice for storing and handling various component parts, industrial materials, and commercial supplies.

FEATURES & BENEFITS

CORNER DRAIN HOLES

Drain holes strategically placed in the interior corners of this solid bottom container keep liquids from pooling.

FULLY ARTICULATING HINGES

Fully articulating hinges on access doors allow the doors to open fully and lay flat against the container sidewall

INTERLOCKING WALLS

Interlocking sidewalls at the corner of the container ensure high load capacity and stability.
