

PRODUCT INFORMATION

Part #: DG4048DOLLY

The DuraGreen® heavy-duty, all-steel, 40" x 48" open-frame dolly's improved design features a 1.25" lip that prevents containers from shifting during transport. The lip also allows forklifts to load and unload containers from the dolly. Move bulk containers safely, easily, and quickly between workstations. The 40" x 48" dolly, with a 2,000 lb. capacity, is constructed from all-welded, heavy-angle and channel iron to withstand tough factory, warehouse, and loading dock requirements. Includes two swivel and two rigid casters.

Height	Width	Length	Weight
6.5"	40"	47.75"	68 (lbs.)

Swivel and rigid casters

Two swivel and two rigid casters allow for quick, easy, controlled movement.

Protective lip

The frame has a 2" lip that prevents containers from shifting during transport.
