

PRODUCT INFORMATION

Part #: DGB3230-L

Related Products: DGF323025-2, DGF323034-2

The 30" x 32" bulk container lid is compatible with several collapsible bulk containers in the 30" x 32" footprint. Made from structural-grade high-density polyethylene, the 30" x 32" lid provides a durable and reusable cover for bulk containers during transit or storage. The rugged, overhanging lip provides a secure fit while preventing accidental opening of the container's drop-doors. The raised surface provides additional stability when stacking compatible containers. Lids may be stacked and nested up to 25 pieces for compact storage.
