

40" x 48" Rackable Plastic Pallet

PRODUCT INFORMATION

Part #: DGF4048-P

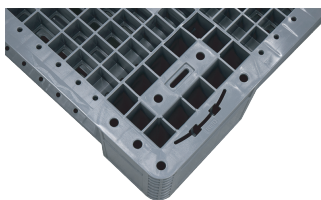

Product Category: Plastic Pallet

Industries: Automotive, Industrial, Grocery

40 x 48 Rackable Plastic Pallets optimize storage and reduce product damage that wood pallets or skids can cause. With the standard 40 x 48 footprint it makes the rackable pallet ideal for the food, beverage, and pharmaceutical industries. The high-pressure injection molded design can withstand the demands of any application, from general distribution and storage to blast freezers. The pallets has a flow-through design with ventilation deck makes it easy to clean and hygienic. They are engineered to be stronger but lighter, saving you money in shipping, and outlast similar pallets. The 40 x 48 Rackable Plastic Pallets 4-way forklift access facilitates easy movement of product loads throughout a system.

Height	5.94"	Static Capacity	30,000 lbs.
Width	40"	Dynamic Capacity (lbs.)	4,000 lbs.
Length	48"	Edge Rack Load	1,800 lbs.
Fork Opening (Short)	11.4" x 3.6"	Weight	46.5 lbs.
Fork Opening (Long)	11.14" x 3.6"	53' Trailer Load	510
Floor Type	Vented	Fork Lift Entry	4-way

FEATURES & BENEFITS

RFID Slots

Two RFID slots allow RFID to be loaded by the end user.

Flow-through Design

Flow-through desing with ventilated deck.

Multiple Labeling Locations

Multiple engraving location options for permanent identification or areas to place labels.
