DuraGreen® 40" x 48" heavy-duty lids are compatible with several heavy-duty collapsible containers in the 40" x 48" footprint. Made from structural-grade, high-density polyethylene, these lids provide a durable, reusable cover for bulk containers during transit or storage. The rugged, overhanging lip provides a secure fit to prevent the accidental opening of the container's drop doors. The lid's raised surface provides additional stability when stacking compatible containers. Lids may be stacked and nested up to 25 pieces for compact storage.

Height	Width	Length	Weight
3.7"	41"	49"	26 (lbs.)
