Product Category: Pallet Pack Containers

Related Products: Top, Bottoms, Sleeves

Industries: Retail, Textile, Industrial, Logistics

The 40" x 48" x 45" plastic pallet pack container system is cost-effective, often paying for itself within six months. The patented slide-lock eliminates costly time-consuming banding and stretch-wrapping systems. Pallets and tops are nestable and sleeves are collapsible, yielding improved warehouse utilization and reducing return freight costs. It takes only one person 60 seconds to assemble one pallet pack system, saving valuable employee time on the job. And, because pallet pack bulk containers can be recycled at the end of their lifecycle, they are environmentally friendly.
