The 40" x 48" x 24" international collapsible bulk containers are over 30% lighter than comparable bulk containers while achieving an industry-best 2,000 lb. capacity. International bulk containers offer the highest level of environmental sustainability because of their low tare weight, replaceable fork straps, and 100% recyclable polypropylene. Replaceable fork straps and patented triple wall base are industry-exclusive design features that combine to deliver product protection and long-term durability in the 40" x 48" x 24" international bulk containers. The 1200mm x 1000mm footprint, which is the standard size in global shipping, is ideal for storing and handling various parts, industrial materials, and commercial supplies.
